

Sphagnum moss is hand-harvested, compressed and specially packaged.

Moss bogs are nature's way of keeping lakes clear and clean. Creative Water Solutions found a specific variety of sphagnum moss that helps balance pool water chemistry. The PoolNaturally® System – and the special PoolNaturally® moss refills – enable you to maintain water chemistry using fewer chemicals, less often.

PoolNaturally® is easier on your skin, equipment and our environment.

Less chemicals.
Less work.
More fun.

You'll use:

- > Less chlorine
- > Less shock
- > Less algaecide
- > Less stain remover
- > Less scale remover

Simply follow the steps, monitor water chemistry and change moss refills monthly. Use less chemicals – less often. Try the PoolNaturally® System. Enjoy a pool experience that's naturally more comfortable. Learn more at www.sanimarc.com

PoolNaturally® Kits come in three sizes and can accommodate in-ground and above-ground pools.

PoolNaturally®

Convenient flow-through bags expose the moss and naturally help balance water chemistry. Simply change the refills once a month.

Specially designed flow-through bags expose the moss to help naturally balance water chemistry.

Moss bogs are nature's way of keeping lakes clear and clean. Creative Water Solutions found a specific variety of sphagnum moss that helps balance spa water chemistry. The SpaNaturally® System – and the special SpaNaturally® moss refills – enable you to maintain water chemistry using fewer chemicals, less often.

By every measure, a more balanced and naturally comfortable water experience:

**Less chemicals.
Less work.
More relaxing.**

- > Skin comfort
- > pH stability
- > Less foaming
- > Less maintenance
- > Fewer water changes
- > Longer spa life
- > Easier on the environment

Simply follow the steps, monitor water chemistry and change moss refills monthly. Use less chemicals – less often. Try the SpaNaturally® System. Enjoy a spa experience that's naturally more comfortable. Learn more at www.sanimarc.com

You'll see and feel the difference. Water is more comfortable using less chemicals. It's easier on equipment and our environment.

SpaNaturally® SpaStart Kits include a specially concentrated spa flush, hose filter and SpaNaturally moss refill. Refills are sold separately. Ask your dealer for the best refill configuration for your spa.
